SUBJECT: Seattle APEC Meeting: China, etc. --
INFORMATION MEMORANDUM (U)

(U) At your direction, last Thursday I traveled on short notice to Seattle to participate with LTG Barry McCaffrey in activities connected with the historic, Presidentially-hosted APEC meeting. I arrived too late for the China prebrief but was included in the President's meeting with President Jiang Zemin.

caution by Chinese leaders. [

] Despite the absence of "give-and-take" I believe the meeting was nevertheless worthwhile; it will yet give us important opportunities to pursue a positive agenda with China. The President's respectfully strategic approach will be welcome not just to those Chinese officials who attended the meeting but also to the broader leadership and political elite in Beijing. I am optimistic that, with continued effort on our part, we will see progress on key issues before long.

More broadly, the Seattle APEC meeting was a rare instance of highly favorable Press coverage not amounting to hyperbole. A meeting at which over fifty percent of global GNP was represented in a single room and which included Beijing, Hong Kong, Taipei and Jakarta, inter alia, is an extraordinary achievement for the President and a major plus for US international leadership. I look forward to the opportunity to discuss this event directly with you when time permits.
